Justin and the Werloobee

- Best Fantasy -

Through a fantasy world this animation shows us the harshness of such inhuman acts as bullying. It is the fantastic characters who set the right example and save the story, and the character. A moral and ethical lesson that we should all learn and spread. Because the world would be much better if we were all fantasy. Excellent animation and character creation!

Perfect setting for this dramatic short film. How to get the best result in just one filming space, would be the title of this review. With a spectacular photograph full of details, illuminating perfectly and looking for the most decisive frames. Magnificent and credible performances. Cool!

Review of the Winning Films

JUSTIN AND THE WERLOOBEE

- Best Animation -

Animation of a lot of artistic, technical and human quality. the subject that he proposes is very common in our societies and he manages it with clarity and at the same time fantasy.

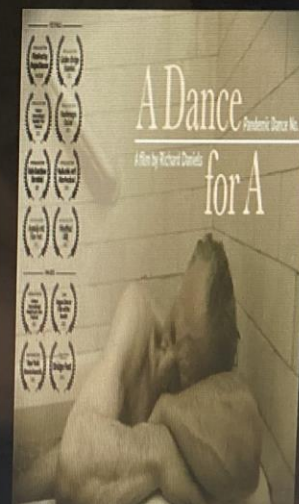

Very attractive characters for the public.

Extraordinary and super realistic background design. A cinematographic work of animation of the highest level! Cool!

A DANCE FOR A PANDEMIC DANCE No. 1

- Special Mention -

Original and great choreography in this experimental short film. The chromatic choice is a success because, in addition to the quality of the images, it endows the film with sensations that join those caused by the movements of the protagonist. Excellent artistic direction. Very well maintained lighting. Great!

PAINTING BY NUMBERS

- Best Student -

Surprising animations of famous paintings, with a parallel story that the film shows us. Very good animation technique. Elegant and leisurely movements. Excellent choice of images and a very interesting and intelligent script. Superb filmmaking! The viewer cannot stop looking at a single frame!

JUSTIN AND THE WERLOOBEE

- Best Social Animation -

The story of this experimental-fantastic short film is hard and at the same time warm. The characters, perfectly created and animated, show us an infinity of sensations and feelings. The viewer can see himself reflected in each scene. Truly the authors of the film have endowed all their characters with LIFE!

PLATINUM AWARD

Dear Ellen,

I am very sorry to report that your film entry has not been selected for this year's Flickers' Rhode Island International Film Festival in August. For RIIFF 2021, we received just over 6,500 entries submitted for consideration, making for a truly daunting adjudication process. We received such amazing films, making the competition lively, exciting, and extremely difficult. Our judges indicated that 985 films scored high enough to be included in this year's festival; unfortunately, this is something impossible to do with a six-day schedule. Ultimately, we were able to program approximately 400 titles this year, placing many films at the last minute as we found additional screening slots. I should note that this is the largest number of entries we have ever screened in what will be a hybrid Festival with over 100 being World, North American and US Premieres.

Despite our final decision, we try our best to make sure great work and talented filmmaking do not go unnoticed, which is why we have listed your project as one of this year's Semi-Finalists for the 2021 Flickers' Rhode Island International Film Festival.

Your film was highly rated by our judges, and made it past our first round of adjudications towards acceptance. While your film will not be featured as part of this year's Official Program at RIIFF 2021, it will be considered for future programming initiatives throughout the coming year. Whether it is part of our Roving Eye International Film Festival, our weekly television show "doubleFEATURE," or part of our annual Vortex Sci-Fi Fantasy and Horror Film Festival, there are a number of festival screenings and events we produce for which your film will be considered in the months to come.

While we do not provide laurels specifically for our Semi-Finalist filmmakers, you are more than welcome to use the laurels provided by Film Freeway if you wish to promote your film's Semi-Finalist status.

As a filmmaker myself, I know how much time and effort it is to make a film one can be proud of. So, I want to take this time to congratulate you on your fine work. Your film has struck a chord with all of us here at Flickers, and I wish you all the best with your work in the months and years to come.

Thank you for sharing your creativity with us. It was a privilege viewing your film.

Warm Regards,

Shawn Quirk

Review of the Winning Films

EL MIEDO

- Best Terror -

Shots, frames, camera movements ... spectacular and very well defined, setting the rhythm of the film. The language of the camera is present at all times. Speechless. Images only. And sound. Nothing else is needed to create such a terrifying atmosphere. Magnificent technical and artistic work. Beautiful images, although also disturbing. Cool!

JUSTIN AND THE WERLOOBEE

- Special Mention -

It is a truly magical animated short film. The characters are very well created, in reality they are more human than the humans themselves. Their expressiveness, the feelings they reflect ... captivate the viewer. And immerse it in a hard story (unfortunately very current), but from a hopeful perspective.

JUSTIN AND THE WERLOOBEE

- Special Mention -

Wonderful and intense animated story. Perfect and very colorful animated creations. A truly magical and very lucid film. The problem of bullying is sadly universal today. This film is a perfect lesson for all those people with doubtful (almost inhuman) feelings. It is a film of hope, love and strength.
