Review of the Winning Films - 1st edition - 2023

Justin and the Werloobee
- Best Social Animation -

Dramatic and fantastic animated short film that deals with great intelligence and empathy with a serious social problem: bullying. The characters, magnificently created with very truthful and visually attractive animated movements, express emotions that connect with the viewer. It is a wonder of animation that fills us with humanity and makes us enjoy. And think about. Bravo!

The Donbass children
- Best War Documentary -

Lubomir delights us with this feature-length documentary full of humanity, despite its dramatic subject matter. Very precise and well argued documentation. Clear narratives that lead the viewer through the story they tell us. Very powerful and perfectly structured script. A great job from the entire cinematographic team! Great!
